

Respected Sir/Madam

I am nominating Mr. Alex Criswell, a Graduate Assistant in the Office of Instructional Technology for the Student Employee of the Year award.

Over the years, as I have been dealing with Alex on a regular basis with all my queries, I noticed that Alex attends to each query with the fullest attention and he never shows an iota of hesitation even when you flood him with a volley of queries. Alex makes himself available to assist faculty, teaching assistants, and students as well, both during both scheduled office hours and non-office hours. I have been in the Purdue system as a doctoral student and a faculty for some time now. I can unequivocally state that the services provided by Mr. Alex are among the highest standards. His commitment and dedication to the OIT and the campus surely deserve appreciation.

Seldom have I come across a staff member as dedicated as Alex. He has NEVER failed to return a query of mine, no matter how frequent or how complicated they are. Also, invariably, he has always helped me fix the problem. I once had Alex in class to explain a Blackboard solution to students and Alex answers my queries even when he is not on campus. Such dedicated staff members are truly an asset not only to their center, but to the entire university system as a whole.

I support Alex Criswell's nomination for this award without any reservation and please feel free to contact me if you have any questions. Thank you!

Attachment: Many other Professors provided letters of support for Alex and I am including all of them in the subsequent pages.

Sincerely

Magesh Chandramouli, PhD
Asst. Professor, Computer Graphics Technology
